Independent Auditors' Review Report**

## **INDEPENDENT AUDITORS' REVIEW REPORT**

The Board of Directors and Shareholders  
Systex Corporation

### **Introduction**

We have reviewed the accompanying consolidated balance sheets of Systex Corporation and its subsidiaries (collectively, the "Group") as of June 30, 2023 and 2022, and the related consolidated statements of comprehensive income for the three months ended June 30, 2023 and 2022 and for the six months ended June 30, 2023 and 2022, the consolidated statements of changes in equity and cash flows for the six months then ended, and the related notes to the consolidated financial statements, including a summary of significant accounting policies (collectively referred to as the "consolidated financial statements"). Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34 "Interim Financial Reporting" endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China. Our responsibility is to express a conclusion on the consolidated financial statements based on our reviews.

### **Scope of Review**

Except as explained in the following paragraph, we conducted our reviews in accordance with the Standards on Review Engagements of the Republic of China 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### **Basis for Qualified Conclusion**

As disclosed in Note 13 to the consolidated financial statements, the financial statements of some non-significant subsidiaries included in the consolidated financial statements referred to in the first paragraph were not reviewed. As of June 30, 2023 and 2022, combined total assets of these non-significant subsidiaries were \$8,105,729 thousand and \$7,368,333 thousand, representing 27.98% and 25.92%, respectively, of the consolidated total assets, and combined total liabilities of these subsidiaries were \$3,803,740 thousand and \$4,023,130 thousand, representing 25.96% and 26.86%, respectively, of the consolidated total liabilities. For the three months ended June 30, 2023 and 2022, the amounts of combined total comprehensive income of these subsidiaries were \$99,895 thousand and \$72,317 thousand, representing 19.03% and 21.11%, respectively, of the consolidated total comprehensive income, and for the six months ended June 30, 2023 and 2022, the amounts of combined total comprehensive income of these subsidiaries were \$264,384 thousand and \$151,019 thousand, representing 27.08% and 18.74%, respectively, of the consolidated total comprehensive income. In addition, as disclosed in Note 14 to the consolidated financial statements, as of June 30, 2023 and 2022, investments accounted for using the equity method of the Group were \$2,017,702

thousand and \$1,794,233 thousand, respectively; for the three months ended June 30, 2023 and 2022, the amounts of the share in total comprehensive income recognized were \$72,806 thousand and \$11,421 thousand, respectively, and for the six months ended June 30, 2023 and 2022, the amounts of the share in total comprehensive income recognized were \$77,021 thousand and \$16,959 thousand, respectively; such amounts were based on the investees' unreviewed financial statements for the same reporting periods. The related information on investments in subsidiaries and associates stated above, as shown in Note 37 to the consolidated financial statements, was also unreviewed.

### **Qualified Conclusion**

Based on our reviews, except for adjustments, if any, as might have been determined to be necessary had the financial statements of the non-significant subsidiaries and investments accounted for using the equity method as described in the preceding paragraph been reviewed, nothing has come to our attention that caused us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Group as of June 30, 2023 and 2022, its consolidated financial performance for the three months ended June 30, 2023 and 2022, and its consolidated financial performance and its consolidated cash flows for the six months ended June 30, 2023 and 2022 in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34 "Interim Financial Reporting" endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

The engagement partners on the reviews resulting in this independent auditors' review report are Yu-Hong Kuo and Shiow-Ming Shue.

As of the date the consolidated financial statements were authorized for issue, the Group is continuously assessing the possible impact of the application of above standards and interpretations on the Group’s financial position and financial performance and will disclose the relevant impact when the assessment is completed.

#### **4. SUMMARY OF MATERIAL ACCOUNTING POLICY INFORMATION**

##### **a. Statement of compliance**

These interim consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and IAS 34 “Interim Financial Reporting” as endorsed and issued into effect by the FSC. Disclosure information included in these interim consolidated financial statements is less than the disclosure information required in a complete set of annual consolidated financial statements.

##### **b. Basis of preparation**

The consolidated financial statements have been prepared on the historical cost basis except for the financial instruments which are measured at fair value and net defined benefit liabilities which are measured at the present value of the defined benefit obligation less the fair value of plan assets.

The fair value measurements are grouped into Levels 1 to 3 based on the degree to which the fair value measurement inputs are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- 1) Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities;
- 2) Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
- 3) Level 3 inputs are unobservable inputs for the asset or liability.

c. Basis of consolidation

See Note 13, Table 9 and Table 10 for the detailed information of subsidiaries (including the percentage of ownership and main business).

d. Other material accounting policies

Except for the following, refer to the consolidated financial statements for the year ended December 31, 2022.

1) Retirement benefits

Pension cost for an interim period is calculated on a year-to-date basis by using the actuarially determined pension cost rate at the end of the prior financial year, adjusted for significant market fluctuations since that time and for significant plan amendments, settlements, or other significant one-off events.

2) Income tax expense

Income tax expense represents the sum of the tax currently payable and deferred tax. Interim period income taxes are assessed on an annual basis and calculated by applying to an interim period's pre-tax income the tax rate that would be applicable to expected total annual earnings.

## 5. MATERIAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

Refer to the statements of material accounting judgments and key sources of estimation uncertainty of the consolidated financial statements for the year ended December 31, 2022.

	<u>\$ 373,892</u>	<u>\$ 342,633</u>	<u>\$ 531,985</u>

These investments in equity instruments are held for medium- to long-term strategic purposes. Accordingly, the management elected to designate these investments in equity instruments as at FVTOCI as they believe that recognizing short-term fluctuations in these investments' fair value in profit or loss would not be consistent with the Group's strategy of holding these investments for long-term purposes.

For the six months ended June 30, 2023, the Group sold part of investments at fair value because of investment strategy and its related unrealized valuation gains of \$60 thousand was transferred from other equity to retained earnings.

Amortized cost	<u>\$ 500,000</u>	<u>\$ 500,000</u>	<u>\$ 500,000</u>

The Group's exposure and the external credit ratings are continuously monitored. The Group reviews changes in bond yields and other public information and makes an assessment whether there has been a significant increase in credit risk since the last period to the reporting date.

The Group considers the historical default rates of each credit rating supplied by external rating agencies, the current financial condition of debtors, and industry forecast to estimate 12-month or lifetime expected credit losses. The Group's current credit risk grading framework comprises the following categories:

Category	Description	Basis for Recognizing Expected Credit Losses	Expected Loss Rate	Gross Carrying Amount at		
				June 30, 2023	December 31, 2022	June 30, 2022

The average credit period of receivables was 60 to 90 days. The Group delegated a department responsible for managing receivables, establishing credit limits, credit approvals and other monitoring procedures to ensure the profitability of the Group.

The Group applies the simplified approach to providing for expected credit losses prescribed by IFRS 9, which permits the use of lifetime expected loss provision for all receivables. The expected credit losses on receivables are estimated using a provision matrix by reference to the past default records of the debtor, the debtor's current financial position, economic condition of the industry in which the debtor operates, as well as the GDP forecasts and industry outlook. As the Group's historical credit loss experience does not show significantly different loss patterns for different customer segments, the provision for loss allowance based on past due status is not further distinguished according to the Group's different customer base.

The Group writes off a receivable when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery. For receivables that have been written off, the Group continues to engage in enforcement activity to attempt to recover the receivables due. Where recoveries are made, these are recognized in profit or loss.

The following table details the loss allowance of receivables based on the Group's provision matrix.

c. Retained earnings and dividends policy

Under the dividend policy as set forth in the Corporation's Articles of Incorporation ("Articles"), where the Corporation made a profit in a fiscal year, the profit shall be first utilized for paying taxes, offsetting losses of previous years, setting aside as legal reserve 10% of the remaining profit, setting aside or reversing a special reserve in accordance with the laws and regulations, and then any remaining profit together with any undistributed retained earnings shall be used by the Corporation's board of directors as the basis for proposing a distribution plan, which should be resolved in the shareholders' meeting for the distribution of dividends and bonuses to shareholders, except that the board of directors is authorized to adopt a special resolution to distribute dividends and bonuses in cash and a report of such distribution should be submitted in the shareholders' meeting.

For the policies on distribution of compensation of employees and remuneration of directors, please refer to Note 22 c. for details.

For the goal of sustainable operation and development, the Corporation considers the overall environment and the nature of industry growth along with the long-term financial planning, and applies the dividend policy for residual earnings. The Corporation evaluates the annual funding requirements according to its future capital budget and retains the required fund from the earnings, and distributes the residual earnings as follows:

- 1) Determine the optimal capital budget.
- 2) Determine the funding requirements to meet the optimal capital budget.
- 3) Determine the funding requirements to be met by unappropriated earnings (the remaining may be met through capital increase by cash or issuance of bonds).
- 4) The residual earnings, less an appropriate portion for the operation requirements, may be distributed to shareholders.

The Corporation's dividends may be distributed in cash or shares. The distribution of profits shall be made preferably by way of cash dividends. The distribution could also be made by way of stock dividends, which should not exceed 50% of the total distributed earnings in principle. In addition, dividend policy depends on criteria such as the Corporation's current and future investment environment, cash requirements, domestic and international competition, capital budget, etc. Further, the Corporation also takes into consideration shareholders' interests, balances of dividends and its long-term financial goals. Annually, the board of directors prepares a proposal on earnings appropriation for approval at the shareholders' meeting.

For the distribution of dividends, if the distribution is in cash, the board of directors shall be authorized to resolve the proposal by the vote of at least half of the directors present, provided the number of directors present shall be at least two-thirds of the entire board of directors, and report the distribution to the shareholders' meeting. The Corporation may distribute all or part of the reserve in accordance with laws or the regulations of the competent authority. If it is distributed in cash, the Corporation authorizes the board of directors to make resolutions in accordance with Article 241 of the Company Act and report to the shareholders' meeting.

Appropriation of earnings to legal reserve shall be made until the legal reserve equals the Corporation's paid-in capital. Legal reserve may be used to offset deficits. If the Corporation has no deficit and the legal reserve has exceeded 25% of the Corporation's paid-in capital, the excess may be transferred to capital or distributed in cash.

Under the local regulations, an amount equals to the net debit balance of total other equity items shall be appropriated as a special reserve. The special reserve may be reversed to the extent of the decrease in the net debit balance.

If the Corporation's shares are held by its subsidiaries at the end of the year and the market value of the shares held are lower than their carrying amounts, the Corporation should appropriate a special reserve equal to the difference between the carrying amounts and market value multiplied by its percentages of ownership in the subsidiaries. The special reserve can be reversed in proportion to the percentages of ownership in the subsidiaries when the market value of the shares increased.

The appropriations of earnings for 2022 and 2021 were as follows:

	<b>Appropriation of Earnings</b>	
	<b>For the Year Ended December 31</b>	
	<b>2022</b>	<b>2021</b>

d. Financial risk management objectives and policies

The Group's main target of financial risk management is to manage the market risk related to operating activity (including foreign currency risk, interest rate risk and other price risk), credit risk and liquidity risk. To reduce the potential and detrimental influence of the fluctuations in market on the Group's financial performance, the Group endeavors to identify, estimate and hedge the uncertainties of the market.

The Group's significant financial activity is reviewed and approved by the board of directors and audit committee in compliance with related regulations and internal control policy, and the authority and responsibility are delegated according to the operating procedures.

1) Market risk

a) Foreign currency risk

The Group has foreign currency sales, purchases and borrowings, which were exposed to foreign currency risk. The Group designated a department to monitor exchange rate fluctuations in timely manner and change foreign currency position to control and mitigate such risks as soon as possible.

The sensitivity analysis focused on outstanding foreign currency denominated monetary assets and monetary liabilities (mainly USD and RMB) at the end of the reporting period. A positive number below indicates an increase/decrease in pre-tax net income associated with New Taiwan dollars strengthening/weakening 5% against the relevant currency.

	<b>For the Six Months Ended June 30</b>	
	<b>2023</b>	<b>2022</b>
Increase/decrease	<u>\$ 3,276</u>	<u>\$ 21,329</u>

b) Interest rate risk

The carrying amounts of the Group's financial assets and financial liabilities with exposure to interest rates at the end of the reporting period were as follows.

	<b>June 30, 2023</b>	<b>December 31, 2022</b>	<b>June 30, 2022</b>
Fair value interest rate risk			
Financial assets	<u>\$ 1,870,230</u>	<u>\$ 1,801,683</u>	<u>\$ 1,004,469</u>
Financial liabilities	<u>\$ 4,337,859</u>	<u>\$ 5,177,748</u>	<u>\$ 5,153,938</u>
Cash flow interest rate risk			
Financial assets	<u>\$ 3,164,494</u>	<u>\$ 3,590,352</u>	<u>\$ 4,080,485</u>
Financial liabilities	<u>\$ 109,622</u>	<u>\$ 114,647</u>	<u>\$ 90,550</u>

The Group acquires better interest rate through long-term cooperation with banks; therefore, the effect of interest rate fluctuations is immaterial.

The sensitivity analyses below were determined based on financial assets and financial liabilities with floating interest rates at the end of reporting period. If interest rates had been 10 basis points (0.1%) higher/lower, the Group's pre-tax net income effect would have been as follows:

	<b>For the Six Months Ended June 30</b>	
	<b>2023</b>	<b>2022</b>
Increase/decrease	<u>\$ 1,527</u>	<u>\$ 1,995</u>

c) Other price risk

The Group was exposed to price risk through its investments in listed shares, corporate bonds and mutual funds. The Group established a real-time control system for the price risk, and management does not anticipate any material loss due to this risk.

The sensitivity analyses of the above investment were determined based on financial assets which were measured at fair value at the end of reporting period. If market prices had been 5% higher/lower, the effects on the Group's pre-tax net income and other comprehensive income would have been as follows:

	<b>For the Six Months Ended June 30</b>	
	<b>2023</b>	<b>2022</b>
Pre-tax net income		
Increase/decrease	<u>\$ 302,678</u>	<u>\$ 262,649</u>
Other comprehensive income		
Increase/decrease	<u>\$ 18,695</u>	<u>\$ 26,599</u>

2) Credit risk

Credit risk represents the potential loss that would be incurred by the Group if the counterparties breached contracts. Generally, the maximum exposures to credit risk for financial assets at the balance sheet date are their carrying amounts.

Since the counterparties are creditworthy financial institutions and enterprises and the concentration of credit risk is not significant, the credit risk is anticipated to be immaterial.

3) Liquidity risk

The Group puts in place inventory management system, procedures for collections and payments, and develops cash flow forecast to ensure the liquidity of operating capital. In addition, the Group invests idle funds in short-term investments under consideration of liquidity, security and profitability. The Group also maintains banking facilities to ensure the liquidity of cash.

The Group has sufficient working capital to meet the cash needs for their operations. Thus, no material liquidity risk is anticipated.

In addition, the Group's investments in mutual funds and listed shares are traded in active markets and can readily be sold in the market at their approximate fair values. However, the Group also invested in unlisted shares and corporate bonds without quoted market prices in an active market, and higher liquidity risk is anticipated.
